

**If there's a fire in your house, stay low to the floor, crawl to the closest door or window and if you see firefighters in turnout gear and airpacks, go to them. They will get you out safely.**

**If there's a fire in your house, get out and stay out. And choose a meeting place somewhere outside of your home where you know everyone will gather during an emergency.**

---

EMERGENCY PHONE NUMBER

**In an emergency, the number to call is 9-1-1.**

**If there's a fire in your house, get low to the floor. When you get to a door, feel it with your hand before opening it. If it's warm or hot, don't open it. There may be fire on the other side. Go to a window instead. Open the window and yell for help.**
